### **Message from the Principal I/C**

“One child, one teacher, one pen and one book can change the world”. This beautiful vision of Malala Yousatzai has beautifully encapsulates my firm belief in the transformational power and wonder that is called Education.

Recognizing the importance of early learning, the National Education Policy 2020 states that “Our highest priority must be to achieve universal foundational literacy and numeracy (FLN) in primary school and beyond by 2025”. Indeed , foundational learning are the fundamental or pivotal building blocks for all other learning, knowledge and higher-order skills that a child need to attain through education, in particular and learning throughout life, in general.

Yes, the ultimate aim of education is not merely to give information but to equipped each individual with the ability to fulfilled the life long journey that’s to come, to align our life in harmony with all existence and nature. As Dr. Martin Luther King Jr puts it “The function of Education is teach one to think intensively and to think critically. Intelligence plus character that is the real goal of true education”.

I take this opportunity to congratulate all the teachers and every parent for the steps taken and their priceless contribution towards building the future pillars of our nation. And it is with immense pleasure that we, the staff and the students of Kendriya Vidyalaya, Imphal No. 2 Langjing, herewith bring out the July to September 2023 e-Newsletter which will showcase and the highlight the activities and events of our school’s primary section.

Thank you
